First Time Flying Lesson /Introductory Discovery Flight Package

At A Glance

Do something inspirational for someone, maybe even yourself!

Pilot Journey's Discovery Flight Gift Certificate is the perfect gift for anyone that has ever dreamed of being in the cockpit. Plus, when you order, each certificate is delivered in discreet packaging so as not to ruin the surprise for your pilot-to-be. Also, even if you need a great gift ASAP that is no problem when you order it online. You will receive a PDF copy of the gift certificate instantly by email followed by the package and printed certificate in the mail!

You can buy it today and use it anytime! There is NO expiration date! Remember that you do not need to schedule the flight, but this can be done by the pilot-to-be by the flight school. This is the only gift certificate you will ever buy with NO small print. Pilot Journey gives refunds for unused certificates at any time and for any reason. We believe in —no hassle! refunds!

The Discovery Flight Certificate package includes A REAL Flight Lesson in a REAL airplane at an airport near you! With over 440 locations across the country, you can fly just minutes from where you live!

We were ranked #3 on the Boston Globe's top 100 coolest Christmas Gift List for 2008!

Everything someone needs to actually learn to fly AT AN AIRPORT NEAR YOU!

- *A first "real" flight lesson in the airplane with a FAA Certified Flight Instructor for 30-40 minutes.*
- *A 30 minute seminar/presentation to share the details of the flight lesson. (Retail value: \$7.99)*
- *A 25 page CD eBook that goes over the details of the flight so the pilot-to-be will do well. (Retail value: \$6.99)*
- *A Discovery Flight video seminar that explains what you will actually do on this first flight lesson. (Retail value: \$9.99)*
- *ACTUAL GROUND SCHOOL LESSONS to help you on your first lesson. (Retail value: \$30)*
- *A Certificate of Accomplishment suitable for framing to impress your family and friends. (Retail value: \$6.95)*

PLUS - The CD Version of Two Official FAA Publications. (Retail value: \$39.95)

***The Airplane Flying Handbook** and **The Handbook of Aeronautical Knowledge** - these two books retail in stores for \$39.95. Each book contains over 260 pages of information on flying real airplanes.*

First Time Flying Lesson /Introductory Discovery Flight Package

That's over \$113 worth of FREE Bonuses, ABSOLUTELY FREE! Since this is a real flight lesson in a real airplane, the "pilot-to-be" will need a real Pilot Logbook, which we also include!

We offer the most comprehensive Discovery Flight Package available today. "The Reach for the Sky!" CD is written and produced by Pilot Journey and is not available ANYWHERE else.

Remember, this is a real flight in an airplane. The recipient of this gift will do MOST of the flying in the pilot's seat and complete an actual flight lesson.

Imagine a gift that inspires; could change a life; and be a motivator to set new goals. This is 2009's "WOW" gift idea for yourself or for that special someone in your life. Give an "experience" that has true meaning.

Then after the flight, go to www.pilotjourney.com/accomplishment to request a Certificate of Accomplishment that will make a great conversation piece for any wall!

In a hurry? Pressed for time? Need a gift ASAP? No problem.

ORDER ONLINE – RECEIVE AN INSTANT GIFT CERTIFICATE! We send everyone a copy of the Discovery Flight Certificate instantly as a PDF attached to your receipt in case you need your certificate in a hurry or would like to see it before we print it. PLUS, we send your own custom printed certificate that you may give along with all the other items that make up your Discovery Flight Package. A real value from the #1 seller of introductory/discovery flight lessons!

Don't take our word for how great this gift is....read what others have said in testimonials on page 9.

Your Discovery Flight Package (the 4-color custom printed certificate, 2 CD's, and pilot logbook) will be sent via US MAIL, but we also offer FedEx options for expedited shipping. All this is sent in addition to the copy of the certificate that you instantly receive attached to your receipt email. This enables you to print the PDF version of the certificate and tuck in a card if you are pressed for a quick gift, or it can be used right away to schedule the Discovery Flight with the participating flight school.

First Time Flying Lesson /Introductory Discovery Flight Package

The Details

A Real Flight Lesson

This is not a -ride, but a real flight lesson in a real FAA Certified airplane with an FAA Certified Flight Instructor. The person with this certificate will sit in the pilot's seat and actually learn to fly. They will have their hands on the controls and experience what flying an airplane is all about. More importantly, they will discover that flying is easier to learn than most people could imagine. The air portion of the flight lesson will last from 30 to 40 minutes.

Reach For the Sky CD

This exclusive CD was written and produced by the pilots here at Pilot Journey. Your first flight lesson will be so exciting that we found it helpful to share with you what exactly you will be doing on the flight before you actually get in the airplane. Some things in life simply need an -introduction so you can get every single possible benefit out of the experience. Your first flight lesson is no exception. By taking just 15 minutes to read about your flight, we guarantee you will enjoy your first flight even more. The CD contains the following items:

Learn to fly Seminar – This PowerPoint seminar was given to live audiences and now is captured on CD. Some of the topics covered include:

- Why is flight training life changing
- What to know before you start learning how to fly
- How to succeed after you start
- How to save money on your training
- The difference between part -141 and part -61 flight schools
- Mistakes to avoid
- What can you do with your pilot's certificate

Career Pilot Seminar – Thinking about a career as a pilot? This 30 minute seminar shares some valuable insights and includes:

- Career Options
- What is required
- All about medical certificates
- The training vs. income timeline
- Are there any short cuts? Yes!
- What is the best school?

Two real ground school lessons from a complete private Pilot Course - Learning how to fly an airplane consists of two types of lessons: Lessons on the ground and lessons in the air.

- Lessons on the ground are normally done in the comfort of your own home, while of course lessons in the air are done in a real airplane. Studies have shown that students ALWAYS do better when they watch a video and read just a little before they actually go on the lesson in the air. We at Pilot Journey strongly suggest that you take the time to watch a real ground lesson on your computer screen before you actually go fly the airplane. Doing so will ensure you get the most benefit of your lesson in the air.

First Time Flying Lesson /Introductory Discovery Flight Package

Pilot Logbook

Because it is important for a new pilot to keep track of his or her flight time, we include an actual logbook for new students for them to keep track of their flight time. Also, the Discovery Flight is an actual flight lesson so the 30-40 minutes the student is in the air is –loggable time and would count toward his or her pilot's license.

Certificate of Accomplishment

Doing something this much fun and memorable would not be complete without something to hang on the wall to show family and friends. We include a special link on our website where you can obtain your certificate which we can custom print and send to you in the mail following your flight.

Subscription to AOPA Flight Training Magazine

The Aircraft Owners & Pilots Association official –learn to fly! publication is Flight Training Magazine. A 6 month subscription is yours free and we take care of all the details in having this delivered to you at no charge. You will continue to learn more about flying as you read the pages of this well respected industry publication.

Two Official FAA Publications on CD

We just started sending this CD in July 2009 because the information contained is so helpful in getting the most out of your real flight lesson. These FAA official handbooks, Airplane Flying Handbook (previously titled Flight Training Handbook) and Pilot's Handbook of Aeronautical Knowledge, have been required reading for all pilots for more than 30 years.

Here's more information about these well known publications.

Airplane Flying Handbook

The Airplane Flying Handbook introduces the basic pilot skills and knowledge essential for piloting airplanes. It benefits student pilots just beginning their aviation endeavors, as well as those wishing to improve their flying proficiency and aeronautical knowledge, those preparing for additional certificates or ratings, and flight instructors engaged in the instruction of both students and licensed pilots.

This book is the official FAA source for learning to fly; many test questions for the FAA Knowledge Exams come from this reference. It is illustrated throughout with full-color graphics and photography. Indexed,

8.25"x10.75" format, 280 pages.

Pilots Handbook of Aeronautical Knowledge

The Pilot's Handbook of Aeronautical Knowledge is essential reading for all pilots—from beginning student pilots to those pursuing more advanced pilot certificates. This official FAA handbook introduces

pilots to the broad spectrum of knowledge needed as they progress through pilot training. Studying this book, pilots gain the required knowledge to earn a certificate and learn the aerodynamic theory associated

with airplane flight. This 2008 edition reflects the latest aviation industry procedures, equipment, techniques and regulations. It is a key reference for all the information necessary to operate an aircraft and for passing the FAA Knowledge Exam and Practical Test (checkride). Newly illustrated with hundreds of full-color drawings and photographs! 8.25"x10.75", 470 pages.

First Time Flying Lesson /Introductory Discovery Flight Package

Frequently Asked Questions

1. How old does the person using this certificate need to be?
 - a. We recommend 16 years old. If they are younger than 16, please contact the flight school first to ask if they will accept the certificate.

2. How are refunds handled?
 - a. An unused certificate may be refunded without question at anytime. If the certificate was purchased using a credit card, we are only able to credit the card for 120 days after purchase. Refunds on orders purchased more than 120 days from present date will be made via check and PayPal orders will be credited through PayPal.

3. Can someone ride along on the flight?
 - a. While the Discovery Flight Certificate only covers the cost of one person going on the discovery flight, this depends on what type of airplane is being used by the flight school. Some schools use 4 seat airplanes and some use 2 seat airplanes. You will need to contact the local school to see if this is possible and also if there would be any additional charges.

4. What about weight requirements/issues?
 - a. For the most part anyone less than 240 lbs can fly in all planes with all of our participating flight schools. Many locations have larger airplanes that allow an increase in weight. If you have questions about weight limitations or possible health issues that might prevent you or someone else from taking this flight please contact us first. Also, the FAA has a comprehensive section on their website dedicated to health questions or concerns. Go here to view the FAA's site:
<http://www.faa.gov/pilots/become/medical/>

5. What about eye-site?
 - a. There are not any restrictions on the use of glasses or contacts in being a pilot unlike what you may have heard on TV.

6. What about the weather?
 - a. We suggest flying on days when it's not too windy and not too hot. Hot air creates more turbulence and makes for a bumpy ride. For instance, the summer mornings are generally better than afternoons. Your flight school will work with you to make sure the weather is just right for your first flight lesson. Don't be surprised if you schedule and the school calls to move the lesson to another day. The weather may seem perfect on the ground, but at 3,000 feet it may not be. Your flight school wants your flight to be smooth and take place on days when you can see the sites from the airplane.

Testimonials

We would love to share in your adventure! Go here <http://www.pilotjourney.com/accomplishment> to submit your certificate of accomplishment, share your testimonial, or to email us your pictures and videos.

You can go here to view national radio personality Ralph Bristol's Discovery Flight Video: <http://www.pilotjourney.com/ralph>

"The person I gave this to as a gift has not stopped thanking me, and she went on the flight almost two months ago. It is such a wonderful experience, and so much fun!"

"Gave an opportunity of a lifetime!"

"It was the best gift I ever gave! My boyfriend loved it. It was a great way to see if he would like to take lessons without spending a lot of money."

"My wife thought flying was the best experience she has ever had. It was by far the best gift (next to getting married) that she has received. If you have even a slight interest in flying, this is the gift for you."

"If you are having trouble trying to figure out what to get your boyfriend for Christmas or a birthday, a discovery flight certificate will make you girlfriend of the year!!!"

"This is an amazing value! It was a great experience and helped achieve a lifelong "want to do". Thank you so much!"

"Thrilled is an understatement. They loved IT BEYOND belief."
